

ARRANGE

STOCKHOLM INTERNATIONAL YOUTH SCIENCE SEMINAR 2020!

Stockholm International Youth Science Seminar is with its connection to the Nobel week one of the world's finest science program for young scientists. We are looking for you who wants to arrange the 43 edition of Stockholm International Youth Science Seminar- SIYSS 2020!

SIYSS gather 25 of the world's most outstanding young talents to a December week in Stockholm filled with exclusive and exciting exhibitions and activities. The program include for example meetings with the Nobel prize laureates and participation in Nobel activities. The main event of the week is the Seminar, where the participants present their research for about 1500 Swedish high school students.

SIYSS is arranged by a non-profit project group within Unga Forskare who also is responsible for planning and implementation of the week program for the international participants. The goal is to give them a unique and memorable experience as possible.

The following roles is announced for 2020 project group:

SIYSS-seminar

Director of main event Is supervision during our main event, the SIYSS-seminar. You are responsible for the planning of the seminar and for other smaller event during the week with connection to the main event. The post fits you that are resistant to stress organized and comfortable in a leader position. Research interest and experience is advertising. To review and give feedback to the participants is included in the role. The director of main event is a group leader and leads the work for the SIYSS-Seminar

Coordinator of main event: (2 positions, for 1 position fluent Swedish is required) works with the planning and preparation of the SIYSS-Seminar within a defined responsibility. Research interest and experience is an advantaging. To review and give feedback to the participants is included in the role.

SIYSS-week

Event director (fluent Swedish is required) coordinate the work within event and logistic, put together with the project leader the schedule and leads the week. The role fits you who are stress resistant and organized with a mind of problem solving. The event director is the group leader and leads the work during SIYSS-week. Social characteristics is important for the role.

Event coordinator Work close to the event director with planning of our own event and other details to make everyone enjoy the week. Social characteristic is important for the role.

Food and drink coordinator, work close to the event director with planning of food and drink for the participants during our own events and meals outside our planned events. The food and drink coordinator is also together with the Event director responsible for booking venues for events. Social characteristics is important for the role.

What do you get out of the mission?

By engaging in SIYSS you get experiences in planning and implement both bigger and smaller arrangement from planning to evaluation. You get the possibility to build useful contacts and is offered experiences in leadership, communication or business. As a member of SIYSS-group you always have the right to turn to, the group leader, project leader and the office to get advice and support. All the missions are non-profit which means that there is ca one group meeting per month with independent work in between the meetings. The project starts with a kickoff as fast as the group is added, and the work continue to the end of the year. It is very important to attend the meetings and to be at the SIYSS-week 4-11 December. If you do not live in Stockholm SIYSS will of course give you possible living and traveling costs in connection to the project.

We kindly see that you have earlier experiences in working in project and/or ideal arrangement and are good at taking own initiatives and work in groups.

Application

Applicate by sending CV and personal letter without picture (max 1 A4) where you specify which posts you are interested in. What you can bring to SIYSS and why you want to part of this year's arrangement group- We attach great importance in personal suitability and a broad group and encourage everyone interested to apply. Apply to emma.svedenblad@ungaforskare.se and write SIYSS20 in the subject line. Recruitment happens continuously so don't wait with your application!

Take the chance to be involved in exciting, challenging and unique project!
